Invest NI Supported Business Performance (2022)

Key Performance Indicators (KPIs) are collected from a sub-set of Invest NI businesses who are significant contributors to the NI economy. KPIs are geographically assigned based on the HQ location of the business.

Key metrics include all sales, external sales outside NI, export sales outside UK and employment (based on Full-Time Equivalent). All data is provisional and subject to further revision.

Businesses are classified according to Invest NI's sector reporting structure which is based on their main product and/or service within Northern Ireland.

Employment by Sector

* Business count too small to release

Businesses by Size

Business by Ownership

Whilst externally-owned businesses represent 5% of the total they account for 24% of employment.

Sales by Sector

Total Sales £1,998m

Sales by Destination

Total Exports: £951m (48%)

Total External Sales: £1,581m (79%)

Total Sales: £1,998m (100%)

Note: Individual amounts may not add to the total figure due to an unassigned amount of £13m (0.7%)

Sales by Trade Territory

Total Exports £951m

Invest NI Activity (2018-19 to 2022-23)

Activity is based on those projects brought forward by Invest NI customers over the past 5 years that have been approved for an offer of support.

“Assistance” is offered at the start of a project based on a company commitment to undertake a business development project, such as job creation, R&D, skills development.

Invest NI’s Assistance is then combined with investment from the company to form the project “Investment”.

The project is then delivered over an agreed period of time meaning there is a lag between Assistance and Investment and the delivery by customers on the ground.

Assistance - Local (96%) External (4%)

Assisted Jobs - Local (95%) External (5%)

Top 10 Investors

Note: Excludes Venture Capital funding

Labour Market Structure (2022)

Unemployment Claimants (2024)

Source: Claimant Count, NISRA

The labour market structure is composed of the economically active (people in employment and seeking work) and inactive (not seeking nor available for work). These data are provided through the Labour Force Survey (LFS), the largest regular household sample survey in Northern Ireland. **Total numbers in employment do not equate to total jobs as a person can have more than one job.**

Unemployment annual averages data is derived from the Claimant Count as LFS figures fall below suppression thresholds. This is an administrative data source based on the numbers claiming unemployment-related benefits. It uses a different definition of unemployment to the LFS.

Both measures of the labour market are based on the working-age (16-64) population.

Employee Jobs (2022)

62,029 jobs within the region (8% of the Northern Ireland total)

Industry Sector

Public/Private Sector

The Business Register and Employment Survey is a business census which provides employee jobs estimates. **This is based on the location and number of jobs rather than the number of persons with a job; therefore someone with two jobs will be counted twice.** It excludes agriculture employee jobs and self-employed (not on a PAYE system).

Earnings (2023)

The median annual earnings for Northern Ireland are **£29,011**

Place of Residence

Median annual earnings based on people living in the area -

£27,726

Place of Work

Median annual earnings based on people working in the area -

£27,617

Based on median, annual, basic and other earnings for full-time employees (more than 30 hours per week) in the private sector.

Qualifications (2022)

This data is provided through the Labour Force Survey (LFS) which is a household survey and includes a measure of qualifications, based on the working-age population (16-64), using the following classification:

- No Qualifications
- Below NVQ Level 4 (Level 1 to Level 3)
- NVQ Level 4 and above (degree level and above)

Business Base (2023)

The business population is defined here by the Inter Departmental Business Register which excludes smaller businesses and the self-employed who fall below the VAT registered/PAYE thresholds.

Business Demography (2022)

A business birth is identified as a business who was present in the active business population dataset for 2022, but not in the two previous years. A business is deemed to have survived for one year if having been a birth in 2021, it is active in terms of employment and/or turnover in any part of 2022. Rates are expressed as a percentage of total active businesses.

Productivity Work-Place Based (2021)

Productivity is based on the Regional Gross Value Added (Balanced) in Current Prices (£). Regional GVA is the value generated by any unit engaged in the production of goods and services.

Per head calculations are made using jobs, rather than the resident population as this can be subject to distortion (due to the effects of commuting and variations in age distribution).

Entrepreneurship (2022)

Total Early-stage Entrepreneurial Activity (TEA) represents the percentage of the population aged 18-64 who are either nascent (in process of starting a business) or new entrepreneurs (running a business not older than 42 months).

Entrepreneurial activity is based on average TEA rates recorded over 2020-2022, which are grouped due to small sample sizes.
